Assignment: Design a Flyer about Drone Safety

Objective: To create a visually appealing flyer that informs people about drone safety guidelines and regulations as outlined in the article, "Drone Regulations: What You Need to Know".

Instructions:

- Read the article "Drone Regulations: What You Need to Know".
- Research further to gather more information about drone safety guidelines and regulations.
- Create a flyer that includes the following information:
- Basic drone safety guidelines
- FAA regulations for flying drones
- Safety precautions for flying drones in public areas
- Risks associated with flying drones irresponsibly
- Consequences of breaking drone regulations
- Resources for more information about drone safety
- Use graphics, images, and other design elements to make the flyer visually appealing.
- Submit the flyer in PDF format.

Grading Rubric:

1. Content (50%):
2. Flyer includes all required information (10%)
3. Information is accurate and informative (20%)
4. Information is presented in a clear and organized manner (20%)
5. Design (30%):
6. Flyer is visually appealing and easy to read (15%)
7. Graphics and images are used effectively to enhance the message (15%)
8. Mechanics (20%):
9. Flyer is free from spelling and grammatical errors (10%)
10. Flyer is formatted correctly and is submitted in PDF format (10%)

Total: 100%
